MODULO è un sistema progettuale composto da 9 moduli poligonali; **8 lineari** e **3 sagomati**.

È una rivisitazione in chiave contemporanea della tradizione del pavimento alla veneziana.

Non solo una collezione progettualmente versatile, ma una soluzione dall'alto valore decorativo che si abbina ai differenti stili di interior design; il vostro gusto determinerà le geometrie e le composizioni cromatiche.

MODULO is a design system consisting of 9 polygonal modules; **8 are linear**, **3 are cut into shape**.

This system is a contemporary take on traditional Venetian floors.

Not only does this collection have a versatile design, but it is also a solution with high decorative value, which matches with any interior design style; your taste will define the geometry and the colour combinations.

I COLORI
E LE GRANULOMETRIE
COLOURS
AND MARBLE CHIPS' SIZES

La scelta dei colori rimanda ad atmosfere tipiche dell'architettura italiana degli anni '50.

Sono disponibili due palette che si differenziano per la gamma di colori e per le dimensioni dei grani di marmo presenti nell'impasto.

Mix/L è più variegata cromaticamente e presenta grani di dimensione più piccola, **Tone/XL** prevede toni più uniformi e una granulometria più evidente.

Il materiale viene fornito con finitura "Opaca".

The selection of colours is inspired by the Italian architecture vague of the Fifties.

The available palettes are two, each standing out for the range of colours and the size of the marble elements included in the mix.

Mix/L is rather chromatically versatile and the marble elements are smaller. In turn, **Tone/XL** stands out for uniform hues and greater marble chips' size.

The material is supplied in the "Mat" finish.
